

## Single Line Comments in SQL

Single-line comments start with '- '. Any text after these 2 characters to the end of the line will be ignored.

-- This part is ignored

```
SELECT * FROM TABLENAME;
```

## Multiline Comments in SQL

Multiline comments start with /\* and end with \*/. They stretch across multiple lines until the closing characters have been found.

```
/*
```

This is a multiline comment.

It can span across multiple lines.

```
*/
```

```
SELECT * FROM TABLENAME;
```

```
/*
```

This is another comment.

You can even put code within a comment to prevent its execution

```
SELECT * FROM TABLENAME;
```

```
*/
```
